

EDUCATION

Florida Gulf Coast University (FGCU)

Bachelor of Science in Software Engineering

- GPA: 3.76; Dean's List; President's List
- Honors College

Relevant coursework: Data Structures & Algorithms, Software Engineering Fundamentals, Digital Systems & Architecture, Software Testing, Intro to Data Engineering, Programming II (Object Orienting Programming)

Fort Myers, FL
Expected May 2025

WORK EXPERIENCE

Rentvine

Front-End Engineer (I)

Fort Myers, FL
November 2024 - Present

- Collaborate with a full-stack development team to build, maintain, and enhance web applications.
- Implement frontend features using **React** to improve user experience and application performance.
- Write and debug backend logic using **SQL** and **PHP** to ensure data integrity and efficient communication with the database.
- Participate in code reviews and provide constructive feedback to ensure high-quality deliverables.

Ottimizza Automação Contábil

Software Engineering Intern

Joinville, Brazil
June 2023 – August 2023

- Project: I utilized **AWS Lambda** and employed **Python** to reorganize bank statements' content ensuring compatibility with the company's software, which is utilized by the entire company.
- Project: Created software that gets the content of an image from an **S3 bucket** and turns it into strings through an AWS Lambda function.

Florida Gulf Coast University.

Research Assistant, Dr. De Castro, FGCU College of Engineering

Fort Myers, FL
November 2023 - November 2024

- Collaborated with Dr. De Castro to employ **Python**, data structures, and algorithms in the implementation of Evolutionary Computing, with the goal of enhancing day-to-day processes for optimal efficiency.
- Facilitate weekly research gatherings, fostering discussions and providing clarity on research objectives.

Florida Gulf Coast University

Teaching assistant for Intro to Comp Science and Programming I and II

Fort Myers, FL
August 2023 – November 2024

- Collaborated with other tutors to establish the best way to teach a topic.
- Helped around 15 students individually and in small groups learn Pointers, Loops, and **Object Oriented Programming in C / C++ and Python**.
- Graded programming assignments and tests, providing constructive feedback to 140 students based on results.

ACADEMIC / PERSONAL PROJECTS

Maritimeviz - Python Package - Senior Project

Spring 2024

- Developed and published a **Python** package to ingest, analyze, and visualize **AIS** (Automatic Identification System) data for maritime vessels
- Implemented data extraction, cleaning, and analysis using **NumPy** and **Pandas**, geospatial visualizations using **Leafmap**
- Enabled global vessel tracking with support for exportable formats and Global Fishing Watch API integration

Database Management System for Retail Store – Intro to Data Engineering / SQL

Spring 2024

- Creating and managing database tables for payments, items, stock, employees, etc.
- Developing queries and views to analyze sales trends, customer behavior, and employee performance
- Implementing a function to update customer reward points post-transaction.

Website Portfolio - Personal Project

Fall 2023

- Developed a personal portfolio showcasing information about me, projects, work experience and programming skills.
- Created a responsive website using **React**, **Tailwind**, and **CSS**

LEADERSHIP EXPERIENCE

Eagle Ambassador | Volunteer

August 2023 – Present

- Serve as a cultural guide for 3 incoming international students each semester, offering support and assistance to help them acclimate to US culture during their first two semesters.

FGCU Tennis Club | President

January 2023 – Present

- Organize and host fundraising events, tournaments, tryouts, and club gatherings for 30+ players at a time.

Society of Hispanic Professional Engineers (SHPE) | Member

January 2024 - Present
